

THE BRIM PERGOLA KIT

What's Included?

As with all of our kits, you choose the end cuts to customize it just the way you want it. This kit is available in pressure treated pine or cedar. It includes 6x6 notched posts, 2X8 beams, and 2x6 rafters (notched over double beam).

We use stainless steel hardware to prevent rotting, and offer optional galvanized steel post base mounting hardware.

Every kit comes complete with all pre-cut, pre-drilled lumber that is pre-marked for easy assembly. It also includes a set of step-by-step instructions to guide you through the assembly process.
